Fein Power Tools | Electrical Earthing & Lightning Protection Systems | High Precision Manufacturing Solutions  
 QSHE and Maintenance Management Systems | Process & Productivity Improvements | Project Management

### CONSULTING AND TECHNICAL SERVICES DIVISION

We are pleased to introduce AIMS as a multi-dimensional technical company staffed and run by highly qualified professionals. The company has an Engineering Solutions and a Trading Division.

Our working philosophy is fairly simple. To develop and provide effective solutions to our clients while maintaining the highest professional and ethical standards. To achieve this, we believe in having a reliable work ethic, honest and open communication, delivering on our promises, continually improving our skill set and working with the client to develop a solution that is practical, useful, effective and environmentally & economically sustainable.

 <h2>AIMS</h2> <p><b>Technical Advisory Services</b></p> <p><b>Process &amp; Productivity Improvement</b></p> <p><b>QHSE &amp; Maintenance Management Systems Development</b></p> <p><b>Industrial Services</b></p> <p><b>New CMMS Installation</b></p>	<p>Our highly experienced team can help you in improving your processes. We develop <b>Maintenance Management Systems</b> and assist in implementation of <b>ISO 9001, ISO 14001 and AS4801</b> systems.</p> <p>We work with your people on the factory floor and develop <b>Asset Failure Prevention Plans</b> which consider asset criticality, work environment, manufacturer's recommendation, regulatory requirements, safety implications etc.</p> <p>This leads to CMMS Data Analysis, Root Cause Analysis (RCA), Development of Preventive Maintenance Plans (PM Development), Critical Spares analysis, Store &amp; Inventory Management, Work Instructions, Contractor Management, Workforce Management and other issues relevant to Maintenance Management.</p> <p>We can also assist in <b>installation of new CMMS</b> and the population of asset register etc.</p>
 <p><b>GOLDEN GEAR TECHNICAL SERVICES</b></p> <p><b>Industrial Maintenance Services</b></p>	<p>Through our sister concern we provide <b>Industrial Maintenance and Repair services</b>. This complements our Technical Advisory Services as detailed above.</p> <p>Be it a small electric motor rewinding job or repairing entire machines. We ensure that the works are done to the highest professional standards in a timely manner.</p>
 <p><b>Complete Design, Installation, Rectification and Audit &amp; Safety Survey for Electrical Earthing / Grounding &amp; Lightning Protection Systems</b></p>	<p><b>Design and Installation of Electrical Earthing / Grounding and Lightning Protection System. We also do audit and safety survey and rectification of existing Electrical Grounding and Lightning Protection Systems.</b></p> <p>Our highly trained staff can provide you with a complete electrical grounding audit and grounding safety survey, which can reduce the probability of injury, lost time and loss of revenue caused by equipment and infrastructure damages as a result of static discharge, main AC power ground fault currents, lightning strikes and much more.</p>

### Who We Are

As the name suggests, AIMS was founded to provide solutions to various engineering problems faced by the industry.

AIMS is headed by Mohammed Khambalia who comes from an entrepreneurial family and has a hands-on approach to his business. He is supported by a dedicated team of professionals who take pride in their work and believe in giving their best every time.

Mohammed completed his Bachelors degree (B.Sc.) in Mechanical Engineering with a minor in Economics from Lehigh University (USA). He then went on to complete his Masters in Engineering (M.Eng.) from University of New South Wales (Australia) in Manufacturing Engineering & Management.

Mohammed has worked in a diverse range of industries including Defence Products, Precision Engineering, Glass Processing, Building Products and the Automotive industry. He has significant experience in areas of maintenance & reliability management, systems development, manufacturing / production management, project management and process & productivity improvements.

Having worked in Australia, the United States and Pakistan in well reputed multi-national companies, he can bring a different perspective, outlook and innovative yet simple solutions to your maintenance and manufacturing problems.

### What We Do

We can support your business and operations in various ways. Some of our extensive range of products and services are listed in this brochure.

We only deal in quality products manufactured by companies that have a reputation for dependability and reliability.

### How We Do It

We are humbled to offer you an impressive range of services and solutions that would be the envy of many companies.

We do this by having strong trading partnerships with companies in USA, Australia, Africa, Middle East and Asia. This trading activity is supported by our state-of-the-art manufacturing base in South Asia. Our manufacturing operations are both, ISO 9001 and ISO 14001 certified.

We believe in continually improving our knowledge, skill set and investing in our human resource and equipment. Only skilled and knowledgeable staff with the right equipment can provide the reliability and quality of service that our customers require.

When you deal with us, you can rest assured that you are dealing with a company that is trust worthy, reliable and dependable.
